

THE S W E E K L Y N E W S

A weekly newsletter curated by the MSOE Society of Women Engineers

The SWE Mission

Empower women to achieve full potential in careers as engineers and leaders, expand the image of the engineering and technology professions as a positive force in improving the quality of life, and demonstrate the value of diversity and inclusion.

The SWE Vision

A world with gender parity and equality in engineering and technology.

Join alumni Glenn Haensgen, Sr. Manager of Industrial Design at Rockwell Automation, for a short presentation on Lean and Six Sigma. In this presentation, expect to learn about

- different approaches to continuous improvement,
- Lean process improvement approaches to problem solving,
- Six Sigma process improvement approaches to problem solving, and
- the criteria for a good project.

We hope you join us for this event to learn about these topics that can help with any engineering discipline.
